Rua Januário Barbosa, 232 – Madalena – Recife – PE – Brazil – 50810-060

EDUCATION

FEDERAL UNIVERSITY OF PERNAMBUCO - CIn - Center for Informatics

Master in Computer Science

Title: An Empirical Study on the Usage of the Kotlin Programming Language for Android Development

Concluded August 2019

UNIVERSITY OF PERNAMBUCO

Bachelor in Information Systems

Graduated in December 2011

SESI / SENAI

Electronic Technician

Concluded December 2006

WORK EXPERIENCE

Serasa Experian - 04/2024 to current www.serasaexperian.com.br

Software Engineering Manager

Leading a team dedicated to developing fraud prevention solutions, encompassing multiple areas such as native SDKs (Android, iOS, Web) and backend services.

AllowMe (by Tempest) - 06/2019 03/2024 - www.tempest.com.br

Lead Mobile Software Engineer

Working building SDKs and apps for Android and iOS focusing on security. Responsible for managing the mobile team using agile practices.

Liferay Inc. - 03/2017 to 06/2019- www.liferay.com

Lead Mobile Software Engineer

Working building apps in different platforms (Android, iOS) with many technologies like Kotlin, Java, Obj-C, Swift, C# and others.

Facilit Tecnologia - www.facilit.com.br - 05/2013 to 03/2017

Software Developer

Software Developer of Java Web and mobile applications (Android, Windows 8/Phone), having used C#, Javascript and many other technologies in different projects, and also performing the role of Scrum Master.

TECHNICAL SKILLS

- Over **13 years of experience in software development**, combining hands-on engineering with technical leadership and team management
- Strong background in **team leadership, people management, and business-oriented decision making**, aligning technical strategy with product goals, delivery timelines, and organizational objectives

- Strong background in **full-stack development**, working with technologies such as **Java, C#, relational and non-relational databases**, and modern **web technologies (JavaScript ecosystem)**
- Deep specialization in **mobile development**, with extensive experience on Android and iOS platforms
- **Master's degree focused on Android development using Kotlin**, reinforcing strong academic and practical expertise
- In-depth knowledge of **mobile architecture, performance optimization, lifecycle management, best practices, and app distribution**
- Proven experience leading teams to establish **high-quality engineering processes**, including **Continuous Integration (CI), automated testing, delivery pipelines, device farms, and modern DevOps practices**
- Strong expertise in **mobile security**, including **cryptography, secure coding practices, data protection, and vulnerability prevention**
- Track record of mentoring engineers, improving code quality, scalability, and long-term maintainability of software solutions

CERTIFICATES

Programming in C# Specialist
Microsoft, License F108-2397

Microsoft Certified Professional
Microsoft, License F108-2395

Certified ScrumMaster
Scrum Alliance, License 000400666

COURSES

ESL – English as a Second Language
Upper Madison College, Toronto – CA
Concluded at August 2012
International Experience between April – October 2012

Management 3.0 – The Next Generation of Management
<https://management30.com> by Ricardo Peters
Concluded at December 2018
